WHO ARE WE:

CITS is an experienced IT Firm with a proven track record in both the federal and private sectors.

We have a Better Business Bureau A+ rating because we put our customers first and focus on our core strengths.

Our primary focus is providing data and application solutions for our clients.

CORE COMPETENCIES

- **Application Development** – Using industry best practices we create highly optimized systems that increase efficiency and use intelligence to increase accuracy.
- **Systems Integration** – Bridging to gap to enable systems to communicate reliably, securely and efficiently.
- **Database Development** – Architecting usable, efficient and secure database schema so that all your systems have a solid foundation.
- **Database Administration** – From single servers, clusters and cloud systems we ensure it is optimized, secured and monitored.
- **Data Cleanup** – Using custom built and COTS tools our experts organize and standardize your data.
- **Data Migration** – Moving to another platform or a version upgrade we ensure your data's integrity from end to end.

DIFFERENTIATORS

- Data experts who design end to end solutions that solve today's issues yet are forward thinking so that future upgrades and enhancements are non-disruptive.
- We only bring on the best of the best and require that all employees have database certifications from one of the major database vendors.
- We partner with and have inside channels to the major vendors in the enterprise data space.

PAST PERFORMANCE

- Social Security Administration - As a subcontractor to PRIME, developed financial planning system to allow planning while operating under continuing resolutions.
- American Kidney Fund – Performed several data cleanups and developed a data warehouse for reporting.

PARTNERS

These are some of our partner that support us so that we can better support you and ensure your needs are met.
